Words of Wisdom

Happiness is a gift and the trick is not to expect it, but to delight in it when it comes.

- Charles Dickens

Gamble everything for love, if you are a true human being.

- Rumi

Quiz Me!

1. When was the ski-hill rope tow invented?
2. Where was the first rope tow installed?
3. When and where was 5-pin bowling invented?
4. Where would you find the world's largest hockey stick?
5. What 2 hockey legends have scored over 800 regular season career goals?

FINISH PISCES PETE

Just Kiddin'

If chickens would lay peas what would you call them?
Chickpeas.

Why did the chicken cross the beach?
To get to the other tide.

Why did the jelly roll?
Because it saw the apple turnover.

History 101

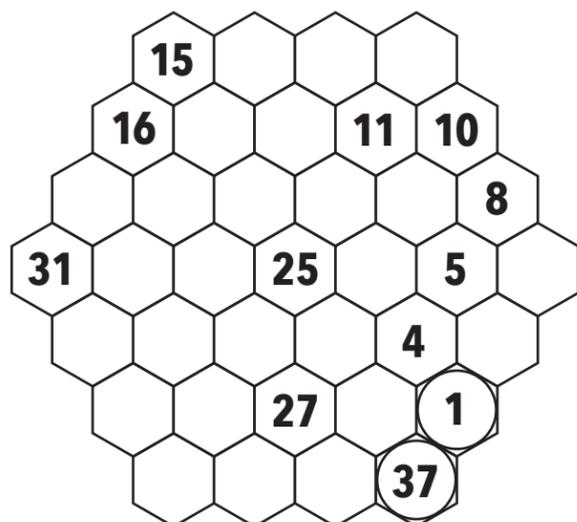

SUBMITTED BY JIM COVENEY

Hastings-born Philip MacDonald made a positive impact in this world. He was the son of Dr. Joseph and Irene MacDonald, born in 1924, in their home west of the gazebo on Front Street. The house can still be identified by its unique stone fence.

As a youth, he often frequented Henry Scriver's boat building shop just across the street (the only remaining building) that housed Hastings Marine for years. It was also a well-known meeting place of Hastings Hall of Famer, Boston Bruin, Dit Clapper. Phil went on to Osgoode Hall and embarked on a distinguished career as a lawyer and financial manager. He founded York Trust, was Vice President of British International Finance, President of Scarborough Finance and Simcoe Retail Acceptance. He also managed political campaigns. He dedicated much of his time and money to charitable projects. In Kenya, he built and funded "Patricia MacDonald Home", a children's shelter. It was named after Phil's wife. Phil passed away two years ago but his goodwill lives on!

Hidato

Fill the cells with consecutive numbers from 1 to the highest number (which are circled) so that consecutive numbers connect. 1 must be next to 2, which must be next to 3, which must be next to 4, etc.

January's Riddle Answers

What goes up and down, but doesn't move? Stairs.
During what month do people sleep the least? February.
What asks, but never answers? An owl.
What can never be placed in a saucepan? Its lid.
How could a baby fall out of a twenty-storey building onto the ground and live? It fell from the ground floor.

Animal Crackers

Owls have rings of curved feathers around their eyes (facial discs) that are attached to muscles that control small holes on the side of their head (ears). These raptors can move their facial discs to help them locate and amplify sounds!

Scientists refer to pincers, on creatures like crayfish and crabs, as chelipeds (KELL-uh-peds). Chelipeds means "a leg that includes a claw".

Quiz Me!

ANSWERS

1. 1931. 2. Shawbridge, Quebec. 3. Toronto, 1905. 4. Duncan, BC. 5. Wayne Gretzky & Gordie Howe.
